The Stoics: A Guide for the Perplexed Mark Holowchak,2008-06-22 An introduction to the Stoics ideal for undergraduate students taking courses in Ethics and Ancient Philosophy

A New Stoicism Lawrence C. Becker,2017-08-29 What would stoic ethics be like today if stoicism had survived as a systematic approach to ethical theory if it had coped successfully with the challenges of modern philosophy and experimental science A New Stoicism proposes an answer to that question offered from within the stoic tradition but without the metaphysical and psychological assumptions that modern philosophy and science have abandoned

Lawrence Becker argues that a secular version of the stoic ethical project based on contemporary cosmology and developmental psychology provides the basis for a sophisticated form of ethical naturalism in which virtually all the hard doctrines of the ancient Stoics can be clearly restated and defended. Becker argues in keeping with the ancients that virtue is one thing, not many, that it and not happiness is the proper end of all activity, that it alone is good, all other things being merely rank ordered relative to each other for the sake of the good, and that virtue is sufficient for happiness. Moreover, he rejects the popular caricature of the stoic as a grave figure, emotionally detached and capable mainly of endurance, resignation, and coping with pain. To the contrary, he holds that while stoic sages are able to endure the extremes of human suffering, they do not have to sacrifice joy to have that ability, and he seeks to turn our attention from the familiar therapeutic part of stoic moral training to a reconsideration of its theoretical foundations.

The Self, the Lord, and the Other according to Paul and Epictetus Michael J. Gorman, 2023-03-29. This study explores the relationship between the individual person, the self, the divine, and other people in the writings of the apostle Paul and the Roman Stoic Epictetus. It does so by examining self-involving actions expressed with reflexive pronouns (myself, yourself, etc.) in various kinds of sentences, for example, "Examine yourself" and "You do not belong to yourself." After situating the topic within the fields of linguistics and ancient Greek, the study then examines the reflexive constructions in Epictetus's Discourses, showing that reflexive texts express fundamental aspects of his ethic of rational self-interest in imitation of the indwelling rational deity. Next, the investigation examines the 109 reflexive constructions in Paul, providing an exegesis of each reflexive text and then synthesizing the results. Paul's reflexive phrases are essential statements of his theology and ethics, expressing an interconnected narrative: Christology, narrative apostolic identity, and narrative ethic. Most importantly, the study finds that for Epictetus, concern for others is a rational means to self-realization, whereas for Paul, concern for others is a community ethic grounded in the story of the indwelling Christ and is the antithesis of self-interest.

A Field Guide to a Happy Life Massimo Pigliucci, 2020-09-15. A brilliant philosopher reimagines Stoicism for our modern age in this thought-provoking guide to a better life. For more than two thousand years, Stoicism has offered a message of resilience in the face of hardship. Little wonder, then, that it is having such a revival in our own troubled times. But there is no denying how weird it can be. Is it really the case that we shouldn't care about our work, our loved ones, or our own lives? According to the old Stoics, yes. In *A Field Guide to a Happy Life*, philosopher Massimo Pigliucci offers a renewed Stoicism that reflects modern science and sensibilities. Pigliucci embraces the joyful bonds of affection, the satisfactions of a job well done, and the grief that attends loss. In his hands, Stoicism isn't about feats of indifference but about enduring pain without being overwhelmed while enjoying pleasures without losing our heads. In short, he makes Stoicism into a philosophy all of us, whether committed Stoics or simply seekers, can use to live better.
