### **The Āśrama System**

Patrick Olivelle,1993 The lesser known and explored of the two pillars of Hinduism rama and var a rama is the name given to a system of four distinct and legitimate ways of leading a religious life as a celibate student a married householder a forest hermit and a world renouncer In this the first full length study of the rama system Olivelle uncovers its origin and traces its subsequent history He examines in depth its relationship to other institutional and doctrinal aspects of the Brahmanical world and its position within Brahmanical theology and assesses its significance within the history of Indian religion Throughout he argues that the rama system is primarily a theological construct and that the system and its history should be carefully distinguished from the socio religious institutions comprehended by the system and from their respective histories

Empire *The Gospel according to Mark* Camille Focant, 2012-07-06 The world to which the Gospel of Mark introduces its reader is a world of conflicts and suspense enigmas and secrets questions and overturning of evidence irony and surprise Its principal actor Jesus is perplexing in the extreme He is evidently so for the religious authorities who oppose him but also for his disciples who shift from incomprehension to opposition and flight Questions of meaning life and death good and evil are continually broached This narrative is a subtle invitation to enter into a new world that of the coming Reign of God in which the first are last and whoever wants to save his life must lose it This commentary on the Gospel of Mark has been enthusiastically reviewed in the French edition as one of the best current commentaries on Mark As a narrative critical commentary it favors an interpretation of the Gospel that tries to grasp the dynamic of the text taken as a whole Even if the technical vocabulary of narrative analysis is not used and the main results of the historical critical criticism particularly those of redaction criticism are not neglected as the notes will reveal it is narrative criticism that guides the proceedings *Acts and Letters of the Apostles* Richmond A. Lattimore, 2015-04-21 Richmond Lattimore one of the most distinguished living translators of Greek has in this book completed his rendering of the New Testament in fresh and accurate English for the modern reader The publication of his translation of The Four Gospels and the Revelation in 1979 was hailed by the New York Times Book Review as an achievement that places us more deeply in Lattimore's debt than any other in a long diligent career The Acts of the Apostles which he calls the earliest consecutive story of early Christianity that we have and the three groups of Letters of the Apostles those of Saint Paul the letter to the Hebrews and the General Letters are now made available to complete the New Testament in his translation His aim again has been to provide a simple literal rendering in which the syntax and order of the Greek dictate the character of the English style Lattimore as an authority on the Greek language in which these texts have come down to us and as a writer without pretensions as a biblical scholar allows the words of the apostles and earliest disciples to speak for themselves with accuracy and fidelity to the Greek The book's design follows the attractive and readable format of The Four Gospels and avoids the usual apparatus of biblical texts The Lectures of a Certain Professor Joseph Farrell, 1906 *Church Invisible* Andrew Gamman, 2013-11-16 We are living in a time in which we are seeing a rapid unravelling of institutional structures in Western society and a re-alignment of values The church is not faring well in this process This book takes the form of an earthed and practical theology and asks the question what is the church Rather than a purely theoretical or a purely pragmatic approach it looks to the radical Reformers of the sixteenth century and finds there an emphasis on the church's invisible realities and on community both of which have a relevance to the twenty-first century **Writing Combat and the Self in Early Modern English Literature** Jennifer Feather, 2011-12-22 By examining these competing depictions of combat that coexist in sixteenth-century texts ranging from Arthurian romance to early modern medical texts this study reveals both the importance of combat in understanding the humanist subject and the contours of the previously neglected pre-modern subject **Adventure**, 1920 *The Chronicle*
