Uber Fontane:

Theodor Fontane Brian Tucker,2021-06-03 What happens when fashionable forms of unserious speech prove to be contagious when they adulterate and weaken communicative spheres that rely on honesty trust and sincerity Demonstrating how the tension between irony and avowal constitutes a central conflict in Fontane s works this book argues that his best known society novels play out a struggle between the incompatible demands of these two modes of speaking Read in this light the novels identify an irreconcilable discrepancy between word and deed as both the root of emotional discord and the proximate cause of historical and political upheaval Given the alarm since 2016 over unreliability falsehood and indifference to truth it is now easier to perceive in Fontane s novels a profound concern about language that is not sincere and not meant to be taken literally For Fontane irony exemplifies a discrepancy between language and meaning a loosening of the ethical bond between words and the things to which they refer His novels investigate the extent to which human relationships can continue to function in the face of pervasive irony and the erosion of language s credibility Although Fontane is widely regarded as an ironic writer Tucker s analyses reveal a critical distance between his works and the prospect of irony as a dominant idiom Revisiting Fontane s novels in a post truth age brings the conflict between irony and avowal into sharper relief and makes legible the stakes and contours of our own post truth condition [Theodor Fontane as a Critic of the](#)

Duckworth,Deanna Benjamin,2025-10-14 In narratives of literature and cultural production hope and despair remain fundamental in exploring our world In recent years political polarization the Covid pandemic global warming and new and ongoing wars have contributed to global crises to which despair is an understandable response Yet hope is continually sought and proclaimed By examining tropes of ruin and regeneration in a wide selection of narratives including memoir graphic

narratives fiction film art radio plays culture rhetoric and discourse the book uncovers resonances between them The anthology moves from the personal to the collective addressing individual matters of the body and the mind societal visions of utopia and dystopia and finally hope and despair for the earth itself in representations of apocalypse and the Anthropocene This structure alongside the interdisciplinary nature of the project maps dynamic international perspectives in which hope and despair flow across and through personal social and earthly concerns The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
