topic because the two styles of music have a similar history but developed into opposite directions and they are furthermore both mostly sung by people of African American descent Another reason for my choice is that I want to know if the images of Rap and Gospel I have in mind are really true or just prejudices Are Rap lyrics full of swear words Is Gospel by some means or other related to Rap One of the images I have in mind are the lexicons of Rap and Gospel because when you listen to two typical song you will clearly hear the differences in speaking and in the choice of words For my analysis I chose two representative songs Only God Can Judge Me by the gangster rapper Tupac Shakur 1971 1996 and Judge Me Not by the baptist preacher Timothy Wright 1947 2009 I will start with a general overview of Rap and Gospel give a short history of their development so that the same roots of the styles of music become more obvious In the following I will present the results of the analyzed domains of register commencing with the use of swear words and the application to the five types of linguistic forms of swearwords Then I will go on with the use of slang and especially the phonological representation of the features of African American Vernacular English due to the descent of the two singers
