Eleanor Stoneham,2012-10-29 God and religion come in for bad press these days Is religion worth keeping Are militant atheists misguided Do religion and spirituality need each other Is it possible to build tolerance and respect in a divided world And can science play a role Eleanor Stoneham explains why the answer to all these questions is a resounding yes It is true that religions need to change and become more relevant for today s needs But supposing science also changed shed its shackles of conventional materialistic dogma based on some shaky assumptions and looked with new eyes at religious beliefs such as prayer distance healing and life after death Is it possible that the latest ideas on empathy and consciousness could be narrowing the gulf between science and religion In our quest for a more just and peaceful society could these same ideas help us find stronger inter religious bonds of respect and understanding at the level of heart and soul This book will help lay persons and clergy alike relate church tradition to the wider world of science spirituality and interfaith issues It will challenge the spiritual but not religious It will make the faithful think And it will test those convinced that their religion or faith is the only way to enlightenment the only path to Truth

Why Religion Matters Huston Smith,2009-10-13 In his book *Why Religion Matters* Huston Smith writes about how religion is being stifled by scientism the mass media culture education without soul and a legal system without morality According to Smith religion must be liberated from these bonds if the human spirit is to experience its true depth and potential Smith the most renowned and beloved authority on world religions delivers a powerful message that he feels is vitally needed now We increasingly live in a world in which the human spirit is being suffocated in a society in which scientific reductionism mass media trivialization of culture functional education and a soulless legal system dominate our everyday values and judgment *Why Religion Matters* presents the argument that our great wisdom traditions religion and philosophy cannot ultimately be denied If they are honored and championed there is great hope for humankind Otherwise we will go on living in a distorted culture and society not realizing our full potential

are abandoning religion Stark marshals an incredible amount of data surveys of more than a million people in 163 nations to paint the full picture that both scholars and popular commentators have missed He explains why the astonishing growth of religion is happening and what it means for our future Stark s lively eye opening book is full of insights that defy the conventional wisdom He reveals Why Islam is not overtaking Christianity 81 percent of people around the world claim to belong to an organized religious faith Half of the people around the world attended a worship service in the past week Despite all the attention paid to the New Atheists atheists remain few anywhere Latin America has never been so Catholic and that s because there are now so many Protestants there Of all the great world religions only Buddhism may not be growing As Stark shows secularists have been predicting the imminent demise of religion for centuries It is their unshakeable faith in secularization that may be the most irrational of all

Religion as Communication Professor Enzo Pace,2013-06-28 Why do Gods persist in contemporary society Religious revival and vitality all over the world contradict the vision of continuing declining of belief This linear process of eclipse of the sacred in modern society has been proved wrong Religion indeed is an expert system competent in ultimate meanings of human being and social order Enzo Pace argues that religion persists as a symbol because of its intrinsic power of communication in its will to wield the power to dominate the event of death and to build a bridge between the visible and the invisible The crucial passage from living word to holy scripture is a fundamental device in the construction of a system of religious belief This book provides an insight on a new approach to religious studies drawing from systems theory to consider religion as a means of communication and offering a critical alternative to the secularization theory to explain why religion persists in modernity
