Wisdom Of Islam:

The Wisdom of Islam Robert Frager,2002 This introductory guide has been written especially for the enlightenment of Western non Muslims by a Western convert to the Sufi order of Islam Author Robert Frager asserts that although many books written by scholars and historians present very good intellectual accounts of the religion they often fail to convey the emotional and religious experience of devout Muslims Thus he illuminates the actual experiences of Muslim men and women in Islamic society and discusses their spiritual yearnings their conception of the beauty of prayer the glories and hardships of pilgrimage and the inspiration of the Sufi ceremony of Remembrance of God He presents an overview of Islam s foundations scripture and history then concentrates on Muslim psychology emphasizing the typical Muslim s ambivalence toward Western culture He also discusses women in Islam including the tradition of the veil the segregation of women and the wide variations in the roles of women in modern Muslim communities The book has approximately 150 full color illustrations that include historical images and contemporary photography

Wisdom of Mankind Habib Siddiqui,2018-05-27

Wisdom of Mankind Description Is Islam a cult or a religion Does Islam promote violence and chauvinism Is it opposed to co existence and diversity These days especially after 9 11 there are hundreds of books with screaming titles each purporting to present the truth about Islam and Muslims The readers are told in those books that Muslims want to kill them because the Qur an says so Muslims want to impose shari ah in the West and impose Jizyah a tax imposed on able bodied non Muslim men of military age upon them Islam is not a religion of peace Islam does not promote sound moral values Islam debases women Islam is incompatible with both democratic pluralism and science Islam will take away all their rights and privileges etc In short these books confirm every fear one may entertain about Islam How true are such assertions and myths In this compiled work by drawing from reliable Islamic sources and traditions dating back to the time of Prophet of Islam Habib Siddiqui dispels many of the myths about Islam that pervade the Western media and the minds of the public at large in the West He shows that Islam is the religion of all the Prophets of God since the time of Adam and that it is a living and breathing religion that is practiced in vast territories of Asia and Africa by nearly a quarter of the world population whose daily practices and understanding of their faith are at odds with those of the nihilists and misguided extremists who in recent years have terrorized some western cities Habib Siddiqui s book *Wisdom of Mankind* is a timely one when suspicions about Islam and Muslims run high and zealots on the both sides of the religious fault line are seemingly bent upon bringing about civilizations wars By reading this book the reader can make up his or her mind about what Islam preaches and what is expected from a Muslim when he lives within a society as a citizen as a parent sibling or child This type of books more than the tomes written by scholars of Islam will help to enlighten the general public about the true beliefs and original spirit of Islam

Quran is the Last Divine book and is full of wisdom. It contains knowledge from the past and also tells us about the future. It guides us through different walks of life and trains us through the corridors of Spiritualism. It gives us the news about the life hereafter and tells us about the Jannah and the Jahannum. While reading Quran, it would be realized that Quran has objectives towards what we are being invited and there are motivations in Quran towards what our attention is drawn again and then. This is the wisdom of Quran. These references that are scattered throughout the Quran have been gathered under appropriate headings. Thus, it gives a fair good idea that we are again and again being reminded or commanded certain things. Moreover, having seen the same reference at different places strengthens our faith about the importance of the commandment. Towards understanding Quran, remember it is the eternal guidance for Humanity. This Book is especially helpful in understanding the Quranic verses. The perspective is that to understand better, it requires an effort to read different versions of TAFASEER and books from different scholars so as to reach the true spirit of the Commandments. Besides, there are explanations in Ahadees related to the same subject. These Ahadees when read in conjunction help better understand the teachings. In these writings, all the matter in support of a topic has been gathered that makes it more appropriate and understandable and thus prevents individual efforts on part of each one of us and would facilitate the state of Emaan to be created through this gust of Deen. This book is valuable for new Muslims as this will make available for them handy information from different sources in one writing. Insha Allah, if they completely read this several times, they will have a fair good idea what Allah wants us to be like and what the shape of Emaan is to be. For our Non-Muslim brethren, this book is of paramount importance as this will give them fair good and first-hand information about Islam in the pattern that would be easy for them to assimilate. The enthusiasm about Quran, the last Divine book, is growing. To read this book, they will get the perspective of a common practicing Muslim towards the teachings of Quran. This would be their guidance towards making the just decision. *Wisdom Prevails: An Islamic Thought of Wonderful Living* Qamrul Khanson, 2012-01-18
