Wisdom Of Religious Commitment:

The Wisdom of Religious Commitment Terrence W. Tilley, 1995-04-05 By exploring a practical rather than propositional understanding of religious belief this book provides a new construct through which to view philosophy of religion Terrence W. Tilley shifts the focus of debate from the justification of rational belief to the exercise of wisdom in making or maintaining a commitment to religious practices It is through practices Tilley concludes that religious belief is formed After analyzing the strengths and limitations of the modern approaches Tilley applies the concept of wisdom to the process of making a religious commitment Wisdom as explored by Aristotle St Thomas Aquinas and John Henry Newman may be thought of as the bridge between intellectual and moral virtues Roughly it can be described as the ability to put intellect into action in a context Because wisdom is a virtue requiring concrete display the book discusses the wisdom of commitment to specific religious practices of a range of traditions These examples demonstrate the issues and complexities involved in the wisdom of making a religious commitment This important challenge to contemporary philosophy of religion will be of special interest to students and teachers of theology and philosophy of religion

Rationality and Religious Commitment Robert Audi, 2011-09-22 Can it be rational to be religious Robert Audi gives a persuasive positive answer through an account of rationality and a rich nuanced understanding of what religious commitment means It is not just a matter of belief but of emotions and attitudes such as faith and hope of one's outlook on the world and of commitment to live in certain ways

Disagreement, Deference, and Religious Commitment John Pittard, 2019-10-01 The striking extent of religious disagreement suggests that religious conviction is very often the result of processes that do not reliably produce true beliefs For this reason many have argued that the only rational response to religious disagreement is to adopt a religious skepticism that eschews confident religious belief Disagreement Deference and Religious Commitment contests this skeptical conclusion explaining how it could be rational to maintain confident belief even in the face of the epistemic worries posed by disagreement John Pittard argues against the commitment to rigorous epistemic impartiality that underlies the case for disagreement motivated religious skepticism while also critiquing approaches to disagreement that allow for the unproblematic privileging of one's first person perspective He emphasizes the importance of having rational insight into reasons that favor one's outlook however he challenges narrowly intellectualist accounts of insight arguing that many of the rational insights crucial to assessing religious outlooks are not achievable through analytical reasoning but only through relevant emotional experiences In the second part of the book Pittard considers the implications that accepting the impartiality requirement favored by disagreement skeptics has for religious commitment He challenges the common assumption that a commitment to rigorous epistemic impartiality would rule out confident religious belief He further argues however that such an impartiality commitment would likely make it irrational to pursue one's favored form of religious life and might prevent one from rationally engaging in any religious or irreligious way of life whatsoever This troubling

conclusion gives reason to hope that the arguments against impartiality are correct and that one can justify conviction despite widespread disagreement
