The Woman Within Rafael E. Lopez-Corvo, 2018-03-22 Although it is quite possible that many will consider this book irreverent or disrespectful of ideas or institutions the author is certain that they will also perceive it as a defender of women and their unquestionable transcendence throughout history The main ideas the author now shares publicly are ones the author has considered for many years the classification of the Eves the masochistic character of women the concept of giraffe women etc Other ideas appeared afterwards some at the last moment as the author enjoyed the company of friends who frequently and generously lend their time to discuss with me their own opinions the author believes that there is a universal feminine principle just as there is a masculine one the difference remains in the fact that from the very beginning of creation everything about man has already been said and nothing continues to be undisclosed whereas woman is an untold story yet to be discovered
