Why Schools Fail

Bruce Goldberg

Why Schools Fail:

Why Schools Fail Bruce Goldberg, 1996-11-01 It is becoming increasingly clear that government schools have failed SAT scores are low dropout rates are staggeringly high and violence is often rampant In *Why Schools Fail* Bruce Goldberg explains the many reasons for the failure of public schooling and offers a prospective remedy to the educational mess in which the United States finds itself *Why Schools Fail* Bruce Goldberg, 1996 Defenders of schooling in its present form claim that its programs are arrived at scientifically and are applicable to everyone I believe that the programs are not arrived at scientifically and are not applicable to everyone The present work is an attempt to illustrate those points Page 3

Introduction **Why? Why? Why? Why Schools Fail Students** Bernie Gilman, 2016-04-18 Is it possible for schools to try and standardise the essential nature of human diversity Why do so many students fail to value the education that they receive at school and why do they forget virtually everything that they were taught just as soon as they have taken the next set of external examinations Indeed is schooling children really synonymous with seeking to enable young people to receive a truly enlightening and liberating education Why is it that academic study is regarded as the pinnacle of human achievement often leading to the subordination or exclusion of other vitally important areas of learning Why do we not place creativity at the very heart of what goes on in schools for example Could it even be maintained that the endless politically motivated and often contradictory ill considered interference of successive UK governments in schooling represents little more than ignorant and incompetent meddling perhaps even child abuse And why is it that schooling seems to lead most young people to eventually stop asking Why Few people will deny the importance and influence of compulsory education not only for the life of every individual but also for the life of the local community of the whole nation even the world Bernie Gilman is concerned that the education which secondary schools in the United Kingdom are currently required to provide falls far short of its potential to develop successful confident socially responsible young people He believes too many complete their formal education with a sense of failure and a lack of self worth as well as a lack of direction in life and this book explores his thesis that it is not our children who fail school but it is our schools which fail our children Bernie Gilman argues that the prescriptive target driven assessment dominated standardised direction in which secondary schools in the UK have been taken by successive governments since the early 1980s has impeded schools and teachers from providing a truly enlightening education for every individual child irrespective of what their particular strength talent and ability may be This is not a book of esoteric educational theory but rather his own critical reflection of a career spent in education written with the heart as much as the head and written with passion erudition humour humility and occasionally indignation Not many people will agree with everything that he proposes but that is not his intention He challenges traditional orthodoxy and the conventional wisdom about the nature and structure of compulsory education in the hope that it will encourage his readers to reflect in unconventional ways about the education that they received and which today's youngsters are currently receiving and to

consider how radical changes might lead to significant improvement to the benefit of the future well being of every individual and of the nation as a whole It is therefore a book which is of relevance and interest not only of educational professionals but to students their parents and anyone interested in education

School Sucks! Peter Collesano,2017-05-17 We all know it but we hate to admit it It can t be true But it is We are now middle of the road beer in a can when it comes to education Half of the world scores better than we do on standardized tests We are falling behind To be sure there have been efforts in the past to avert this disaster and all have failed Why Because they have focused on the wrong thing The answers are simple If we ve learned anything from the past we know simple is not always easy This book is an honest in your face assessment of where we are and the simple obvious and inexpensive ways to get where we want to be
