Veiling Unveiling:

Thamyris Nanny M. W. de Vries, Jan Best, **Anti-Veiling Campaigns in Turkey** Sevgi Adak,2022-02-24 The veiling and unveiling of women have been controversial issues in Turkey since the late Ottoman period It was with the advent of local campaigns against certain veils in the 1930s however that women s dress turned into an issue of national mobilisation in which gender norms would be redefined In this comprehensive analysis of the anti veiling campaigns in interwar Turkey Sevgi Adak casts light onto the historical context within which the meanings of veiling and unveiling in Turkey were formed By shifting the focus from the high politics of the elite to the implementation of state policies the book situates the anti veiling campaigns as a space where the Kemalist reforms were negotiated compromised and resisted by societal actors Using previously unpublished archival material Adak reveals the intricacies of the Kemalist modernisation process and provides a nuanced reading of the gender order established in the early republic by looking at the various ways women responded to the anti veiling campaigns A major contribution to the literature on the social history of modern Turkey the book provides a complex analysis of these campaigns which goes beyond a simple binary between liberation and oppression *Governance in the Middle East and North Africa* Abbas Kadhim,2013-02-15 Governance in the Middle East is topic of interest to scholars activists and policy makers The currently proposed book is intended to present the first comprehensive framework of the question of governance in the Middle East in its various forms and manifestations political economic and government performance *Living according to Nature. Volume Two: Nature and Culture* ,2025-01-23 This edited collection is the second of two volumes offering critical philosophical and interdisciplinary perspectives on contemporary and historic accounts of living in accordance with the broad natural world as at the center of a good and wise life It also explores the meaning and idea of nature in these different perspectives as it relates to and is distinguished from cultural life It builds on the work of Pierre Hadot and others on the connection that philosophers mystics scholars and others ancient and modern have seen between nature as articulated in physics metaphysics ontologies ecologies biologies and evolutionary theories and forms of self communal cultivation **Women and Politics in Iran** Hamideh Sedghi,2007 Why were urban women veiled in early 1900s unveiled 1936 to 1979 and revealed after 1979 revolution This question is the basis of Hamideh Sedghi s contribution to politics and Middle Eastern studies Sedghi gives new knowledge on women s agency in relation to state power She places contention over women at center of political struggle between secular and religious forces and shows that control over women s identities sexuality and labor has been central to consolidation of state power She links politics and culture with economics to present an analysis of private and public lives of different classes of women and their modes of resistance to state power Sedghi incorporates women in Iranian history focuses on state gender religion relations and addresses women s responses to Iranian state women s agency and their resistance Publisher s description *Visual Global Politics* Roland Bleiker,2018-02-13 We live in a visual age Images and visual artefacts shape international events and our

understanding of them Photographs film and television influence how we view and approach phenomena as diverse as war diplomacy financial crises and election campaigns Other visual fields from art and cartoons to maps monuments and videogames frame how politics is perceived and enacted Drones satellites and surveillance cameras watch us around the clock and deliver images that are then put to political use Add to this that new technologies now allow for a rapid distribution of still and moving images around the world Digital media platforms such as Twitter YouTube Facebook and Instagram play an important role across the political spectrum from terrorist recruitment drives to social justice campaigns This book offers the first comprehensive engagement with visual global politics Written by leading experts in numerous scholarly disciplines and presented in accessible and engaging language *Visual Global Politics* is a one stop source for students scholars and practitioners interested in understanding the crucial and persistent role of images in today s world

The Vision of Love's Rare Universe K. D. Verma, 1995-12-06 This study interprets and evaluates Shelley s poem *Epipsychidion* and assumes that although the poem is an individual whole it is a demonstration of Shelley s poetic consciousness centered around his conceptions of the imagination and of love The author investigates how the poem deals with Shelley s vision of love s rare Universe Verma analyzes the influences of Dante s *Vita Nuova* and Plato s *Symposium* on the poem and on the poet s vision of love s rare Universe Through a study of the imagination and the woman the epipsyche in Shelley s work Verma argues that *Epipsychidion* is an anagogic allegory like Dante s *Vita Nuova* but also a poetic discourse on love like Plato s *Symposium* This evaluation of the quality of Shelley s vision in light of his relation to Plato Dante and Neoplatonism will show readers that Shelley s quest and his discourse on love are moral and spiritual This study one of the only book length studies of Shelley s poem will appeal to students in advanced courses and graduate seminars General readers of Shelley and Romantic literature everywhere will also want to have a copy of this thorough and perceptive analysis
