Here you'll learn how to avoid high energy dense foods and how such different nutritional factors as fat, fiber, protein, and water affect energy density and satiety. You'll discover which foods eaten under which circumstances allow you to consume fewer calories and still be satisfied. And you'll get to know the hidden calorie traps: seemingly innocuous foods that can sneak unwanted calories into your body. Finally, the authors offer 60 sensible, tasty, and easy recipes plus an integrated program of exercise and behavior management that can be sustained over a lifetime.
