entails the next thing you are going to want to do is avoid the following conversation killers if you want the other person to stick around long enough

Learn to Listen When you are in a conversation it is just as important to make the other person feel as though you are listening as it is to be actively engaged in whatever it is they are saying

Dealing with Awkward Silences No matter how well any conversation is going there are always going to be moments when everyone involved runs out of things to say at the same time

Starting a Conversation Now that you have learned what can turn a conversation from neutral to either good or bad it is time to start thinking about the best way to start a conversation with a stranger regardless of the time or the place

Ending a Conversation When it comes to ending a conversation properly the most important thing to remember is that you always need to have a clear agenda when doing so

Fake It Until You Make It If you find that despite your best efforts you can't muster up the courage to talk to strangers just to make it easier for you to talk to strangers in the near and distant future there is one simple thing that you can do to make the entire practicing process much more manageable

Conversing with Strangers When it comes to making conversation starting one up with a stranger that you have no context for interacting with is definitely the hardest hurdle to overcome

Conversing with Colleagues Whether you are just starting out at a new job or are simply looking for a way to connect more with your current co-workers who you can't seem to ingratiate yourself too finding the right things to talk about at work can be tricky

Conversing on a Date Finding things to talk about on a date can be tricky especially when you are still feeling one another out

The Mindset of Small Talk Lana Otoy, 2018-05-26

WOULDN'T IT BE NICE TO CHAT WITH ANYBODY WITHOUT HAVING TO COME UP WITH THINGS TO SAY One of the nicest ladies I ever met was a school teacher I was chatting with her on a film set once because we were using her daughter in a commercial This lady was and I repeat one of the nicest people I have ever met I think we chatted for about thirty minutes and then I never saw her again

THIRTY MINUTES I seriously thought that I could trust this lady with all my deepest darkest secrets That I could call her up one day and ask her to go for coffee and she'd say yes How could this lady make such an impression on me in such a short amount of time Well she had mastered the two keys you need to be a perfect small talker

These two things are revealed in my book and once you know them everything gets so much easier My name is Lana and I am a relationship and self-care blogger Before I started a blog I was a seriously introverted University student trying to get through film school without having to small talk with my classmates at lunch Little did I know back then the film industry is all about networking and creating relationships with people you barely know

Once I started actually working in film I was FORCED into learning how to small talk and how to get along with people I was able to do this by observing others and stealing their techniques People like that lovely high school teacher became my role models I needed to do what they were doing After years of observation I realized that all master small talkers have a few things in common but the biggest things

are the two keys that were shown to me so elegantly by that school teacher Once I had mastered those no small talk conversation was a nightmare anymore In fact I started to enjoy them MY BOOK WILL SHOW YOU The two keys you need to master small talk and neither of them involve conversation starters How to shift your perspective on small talk so that it takes the pressure off The reason why small talk is not about entertaining others but is actually for you The difference between a good conversation starter and a bad one Small talk for people with social anxiety Small talk for introverts Small talk for dating making friends and networking How to Improve your self esteem How to help in building confidence How to never fear the dreaded small talk conversation EVER AGAIN If you've read this far you're already 500 words into transforming yourself into a real people person Don't hesitate to make this simple yet super effective change in your life Download my book and INSTANTLY start improving your conversation skills today
