*The Independent*, 1916      **The Independent Set Algorithm** Ashay Dharwadker, 2006-08-08 We present a new polynomial time algorithm for finding maximal independent sets in graphs As a corollary we obtain new bounds on the famous Ramsey numbers in terms of the maximum and minimum vertex degrees of the corresponding Ramsey graphs The algorithm finds a maximum independent set in all known examples of graphs In view of the importance of the P versus NP question we ask if there exists a graph for which the algorithm cannot find a maximum independent set The algorithm is demonstrated by finding maximum independent sets for several famous graphs including two large benchmark graphs with hidden maximum independent sets We implement the algorithm in C and provide a demonstration program for Microsoft Windows
