**Psychoanalysis, Society, and the Inner World** David P. Levine, 2017-02-03 Psychoanalysis Society and the Inner World explores ideas from psychoanalysis that can be valuable in understanding social processes and institutions and in particular how psychoanalytic ideas and methods can help us understand the nature and roots of social and political conflict in the contemporary world Among the ideas explored in this book of special importance are the ideas of a core self Heinz Kohut and Donald Winnicott and of an internal object world Melanie Klein Ronald Fairbairn David Levine shows how these ideas and others related to them offer a framework for understanding how social processes and institutions establish themselves as part of the individual's inner world and how imperatives of the inner world influence the shape of those processes and institutions In exploring the contribution psychoanalytic ideas can make to the study of society emphasis is placed on post Freudian trends that emphasize the role of the internalization of relationships as an essential part of the process of shaping the inner world The book's main theme is that the roots of social conflict will be found in ambivalence about the value of the self The individual is driven to ambivalence by factors that exist simultaneously as part of the inner world and the world outside Social institutions may foster ambivalence about the self or they may not Importantly this book distinguishes between institutions on the basis of whether they do or do not foster ambivalence about the self shedding light on the nature and sources of social conflict Institutions that foster ambivalence also foster conflict at a societal level that mirrors and is mirrored by conflict over the standing of the self in the inner world Levine makes extensive use of case material to illuminate and develop his core ideas Psychoanalysis Society and the Inner World will appeal to psychoanalysts and to social scientists interested in psychoanalytic ideas and methods as well as students studying across these fields who are keen to explore social and political issues

**The Human Meaning** Valentin Matcas, 2017-04-20 Love and the Divine are the best meanings there can be just because love stands at the top of your feelings and you treasure the most while the Divine is everything that exists You cannot find anything beyond love and the Divine capable enough to set your meaning in life and in this world simply because there is nothing else beyond them However there is significantly more to learn and understand about the human meaning just because as it is presented in this world today through science literature philosophy and through the rest of ideologies it is not enough You fail to understand the human meaning and this causes you to fail your own meaning in life and in this world at least your natural meaning as you receive it from Life and from the Divine Because the concept of meaning is presented to you empirically today you cannot understand it accurately in this manner but only through doctrine and beliefs you can never engage your reasoning in this manner in order to grasp accurately your own natural meaning your natural meaning is easily hijacked and everything is done on purpose to harm and exploit you In this

manner you end up fulfilling consensually implemented meanings throughout life on behalf of the rich and the powerful of this world since they are the ones controlling ideologies and therefore consensual meanings in this world Not much that you do now counts for Life and for the Divine despite of what ideologies tell and promise and when you look back now you may see the kind of world that you create And do not blame the rich and the powerful of this world since you are the one doing everything for them Many times it is for your children that you struggle throughout life to make them happy to make them worthy and to make everything count because this is exactly your meaning in your family Yet can t it be the same in your community and in society Does it ever make a difference to have or not to have a specifically defined meaning in life and in this world Yes it certainly makes a difference because all meanings count even the slightest ones since they are connected And it is always a matter of identifying your meanings instead of fulfilling them unknowingly otherwise you end up working your entire life in vain While through your consensually induced meanings you end up working against the meanings of others deliberately or not living your life against your loved ones While they can certainly feel and this ruins entire relationships This is your consensual meaning in your family in society in life and in this world And so you end up living your life against yourself against your own natural meaning Throughout this book we follow identify define understand and model the human meaning genuine and consensual from all perspectives and in all contexts You learn about your meaning in life in this world in society within your family and genetic line within you own cognitive system within higher worlds and within everything that exists

Consciousness and the World Brian O'Shaughnessy,2000 Brian O Shaughnessy presents a theory of consciousness one of the most fascinating but puzzling aspects of human existence He investigates what consciousness is and how it engages through perception with the world

**Parallel Thinking** Edward de Bono,2016-07-07 Western thinking is failing because it was not designed to deal with change In this provocative masterpiece of creative thinking Edward de Bono argues for a game changing new way to think For thousands of years we have followed the thinking system designed by the Greek philosophers Socrates Plato and Aristotle based on analysis and argument But if we are to flourish in today s rapidly changing world we need to free our minds of these boxes and embrace a more flexible and nimble model Parallel Thinking is an invaluable insight into the word of creativity de Bono unveils unique methods of brainstorming and explains preconceived ideas of what creativity involves and is This book is not about philosophy it is about the practical and parallel thinking required to get things done in an ever changing world
