titled Semiotics and the Information Sciences was precisely to focus attention on this pivotal nexus especially given that we
now live in a so called information age where it is becoming increasingly more difficult to distinguish between information
itself and its interpretation The invited papers appearing in this volume given by experts in semiotics and the information
sciences that were designed to investigate this relation by analysis explication and illustration contain significant
implications for studying information in the future The Oriental Economist Tanzan Ishibashi, 1970
