Vocation Lectures:

The Vocation Lectures Max Weber, 2004-03-15 Originally published separately Weber's Science as a Vocation and Politics as a Vocation stand as the classic formulations of his positions on two related subjects that go to the heart of his thought the nature and status of science and its claims to authority and the nature and status of political claims and the ultimate justification for such claims Together in this volume these newly translated lectures offer an ideal point of entry into Weber's central project understanding how as Weber put it in the West alone there have appeared cultural manifestations that seem to go in the direction of universal significance and validity *Charisma and Disenchantment: The Vocation*

Lectures Max Weber, 2020-02-04 A new translation of two celebrated lectures on politics academia and the disenchantment of the world The German sociologist Max Weber is one of the most venturesome stimulating and influential theorists of the modern condition Among his most significant works are the so called vocation lectures published shortly after the end of World War I and delivered at the invitation of a group of student activists The question the students asked Weber to address was simple and haunting In a modern world characterized by the division of labor economic expansion and unrelenting change was it still possible to consider an academic or political career as a genuine calling In response Weber offered his famous diagnosis of the disenchantment of the world along with a challenging account of the place of morality in the classroom and in research In his second lecture he introduced the notion of political charisma assigning it a central role in the modern state even as he recognized that politics is more than anything a slow and difficult drilling of holes into hard boards Damion Searls's new translation brings out the power and nuance of these celebrated lectures Paul Reitter and Chad Wellmon's introduction describes their historical and biographical background reception and influence Weber's effort to rethink the idea of a public calling at the start of the tumultuous twentieth century is revealed to be as timely and stirring as ever

significance and validity *The Vocation Lectures* Max Weber,2004 **Faustian Pact in International Law** Edwin Bikundo,2024-05-31 The book provides an original and captivating perspective on international law and Giorgio Agamben's work The manuscript is profoundly aesthetic textual in its approach as exemplified in its deft and insightful close readings of drama Goethe's Faust prose fiction Melville's Bartleby and Benito Cereno and lyric be it devotional Laudes Regiae Handel The Lord is a Man of War or otherwise Edwin Starr's War Boy George's War Song Attentive to language plot theme and characterisation these readings not only read the texts in question but they also read them anew yielding fresh innovative and unique cultural legal interpretations *Public Intellectuals in the Global Arena* Michael C. Desch,2016-11-15 What is a public intellectual Where are they to be found What accounts for the lament today that public intellectuals are either few in number or worse irrelevant While there is a small literature on the role of public intellectuals it is organized around various thinkers rather than focusing on different countries or the unique opportunities and challenges inherent in varied disciplines or professions In *Public Intellectuals in the Global Arena* Michael C Desch has gathered a group of contributors to offer a timely and far reaching reassessment of the role of public intellectuals in a variety of Western and non Western settings The contributors delineate the centrality of historical consciousness philosophical self understanding and ethical imperatives for any intelligentsia who presume to speak the truth to power The first section provides in depth studies of the role of public intellectuals in a variety of countries or regions including the United States Latin America China and the Islamic world The essays in the second section take up the question of why public intellectuals vary so widely across different disciplines These chapters chronicle changes in the disciplines of philosophy and economics changes that have combined to dethrone the former and elevate the latter as the preeminent homes of public intellectuals in the academy Also included are chapters that consider the evolving roles of the natural scientist the former diplomat and the blogger as public intellectuals The final section provides concluding perspectives about the duties of public intellectuals in the twenty first century **Lectures Given Before the Training Conference for Rural Leaders. Politics Without Vision Tracy B. Strong,2012-04-20 *Politics without Vision* takes up the thought of seven influential thinkers each of whom attempted to construct a political solution to this problem Nietzsche Weber Freud Lenin Schmitt Heidegger and Arendt None of these theorists were liberals nor excepting possibly Arendt were they democrats and some might even be said to have served as handmaidens to totalitarianism And all to a greater or lesser extent shared the common conviction that the institutions and practices of liberalism are inadequate to the demands and stresses of the present times In examining their thought Strong acknowledges the political evil that some of their ideas served to foster but argues that these were not necessarily the only paths their explorations could have taken By uncovering the turning points in their thought and the paths not taken Strong strives to develop a political theory that can avoid and perhaps help explain the mistakes of the past while furthering the democratic impulse *Lectures* Thomas Brackett Reed,1900 **College of Literature, Science,**
