**Toy Medium** Daniel Tiffany, 2000-03-08 In this bold speculative and immensely learned study Tiffany's concept of lyric substance the sense of materiality supplied to us by poets like Wallace Stevens and Marianne Moore constitutes a world whose inaccessibility is legitimized by the principles of scientific materialism Thus lyric too long on the periphery of materialist discourse emerges as being squarely in its center Marjorie Perloff Stanford University author of *The Futurist Moment* and Wittgenstein's Ladder A lyrical inquiry into the circle of ideas materialism science poetics Winding through the whole is a fascinating exploration of toys children's toys physicists toy models philosophers robots nuclear weaponeers toy towns My hope is that this book will contribute to a growing interest not in cleaving science from the arts but rather in exploring poetically the language images and things that illuminate both Peter Galison Mallinckrodt Professor of the History of Science and Physics Harvard University A brilliant achievement synthesizing the history of science and poetics technology and the arts in an iconology of materialism All that is solid melts into air in this book but just as quickly the airy poems of our climate condense into material objective forms weird gadgets and objects of scientific research A wonderful feast of learning and wit W J T Mitchell University of Chicago author of *Picture Theory and Iconology* In clear eyed and gorgeous prose *Toy Medium* moves the question of Art's encounter with Science to an utterly original point of conflagration where matter is mostly not matter Going to the bottom of the Imagination where it still truly involves images Tiffany explores how we have learned to see the inscrutable via our imagistic grasp of materiality This book is daring brilliant and deeply clever Jorie Graham Boylston Professor of English Harvard University author of *Materialism* and winner of the Pulitzer Prize *Once Upon a Toy* Kathy Merlock Jackson, Mark I. West, 2025-06-20 In the magical realm of children's play toys and stories have a rich and complex relationship In this collection contributors analyze the many types of interplay between children's toys and narrative Many of these essays explore how this relationship is portrayed in novels films and television programs Others discuss how this relationship is shaped by broader historical and cultural narratives Still other essays discuss how children create their own stories while playing with toys Taken together the essays speak to the myriad ways that toys are represented in popular narratives and provide insights into the meanings that toys hold for children adults and society

**An Information Integration Approach to Modeling Developmental Differences in Musical Cognition** Steven M. Demorest,1989 Playthings ,1929 **Poetics of Liveliness** Ada Smailbegović,2021-10-29 Can poetry act as an aesthetic amplification device akin to a microscope through which we can sense minute or nearly imperceptible phenomena such as the folding of molecules into their three dimensional shapes the transformations that make up the life cycle of a silkworm or the vaporous movements that constitute the ever shifting edges of clouds We tend to think of these subjects as reserved for science but as Ada Smailbegovi argues twentieth and twenty first century writers have intermingled scientific methodologies with poetic form to reveal unfolding processes of change Their works can be envisioned as laboratories within which the methodologies of experimentation natural historical description and taxonomic classification allow poetic language to register the rhythms and durations of material transformation Poetics of Liveliness moves across scales to explore the realms of molecules fibers tissues and clouds It investigates works such as Christian B k s insertion of a poetic text into the DNA code of living bacteria in order to generate a new poem in the shape of a protein molecule Jen Bervin s considerations of silk fibers and their use in biomedicine Gertrude Stein s examination of brain tissues in medical school and its subsequent influence on her literary taxonomies of character and Lisa Robertson s studies of nineteenth century meteorology and the soft architecture of clouds In their attempt to understand physical processes unfolding within lively material worlds Smailbegovi contends these poets have developed a distinctive materialist poetics Structured as a poetic cosmology akin to

Lucretius s On the Nature of Things which begins at the atomic level and expands out to the vastness of the universe Poetics of Liveliness provides an innovative and surprising vision of the relationship between science and poetry Toy-making in School and Home Ruby Kathleen Polkinghorne,Mabel Irene Rutherford Polkinghorne,1916 **Classification of Occupations for Accident and Health Insurance** ,1912 *Toys and Novelties* ,1921 **The American Exporter** ,1922 **Accident Insurance Manual** ,1907 *Accident insurance manual* Spectator Company (New York, N.Y.),1908 Light ,1895 *Innermost Asia; Detailed Report of Explorations in Central Asia, Detailed Report of Explorations in Central Asia, Kan-su and Eastern Īrān, Carried Out and Described Under the Orders of H.
