F. Veltman,2021-04-28 In the popular imagination the Holy Grail part of the legendary romance of King Arthur belongs to the realm of myth The Knights Templar also have a legendary enigmatic aspect Despite the immense volume of historical research available

plausible explanations to the mystery at the core of their practices have yet to be revealed By studying these two themes side by side and showing their inner relationship Veltman reveals valuable new perspectives On the one hand he demonstrates that the poetic imagination of the Grail mystery has its origin in concrete historical events and on the other hand that the true history of the Knights Templar is essentially esoteric Combining historical research with insights gained from the work of Rudolf Steiner Veltman presents an impressive survey of the subject beginning with the pre Christian Mysteries and ending with a vision of Michaelic Christianity He analyses the significance of the holy city of Jerusalem the Temple of Solomon the Temple Legend the Grail Temple the Rosicrucians the Templars gold and the fraught question of evil In addition he sketches the continuation or metamorphosis of the Grail and Temple impulses into the future including the critical balancing role of Europe between East and West To become effective this important European task which he says is continually being thwarted must be properly understood within the realm of human consciousness One Unarmed Soldier Jamir Ahmed Choudhury,2024-02-29 It is nothing but the Inborn Right Inalienable Natural Right established as Fundamental Right of our Children under UNCRC and RTE Act 2009 India to receive Equal Opposite Apriori Framework of Natural Science and Un contradicted Facts of this Manifested Nature at school educational institution without any Broken Bar It is nothing but our duty for duty s sake as per Mandates of UN UDHR 1948 to protect and to promote Inalienable Natural Rights established as Fundamental Rights of our Children The book One Unarmed Soldier All in One Part II speaks about Equal Opposite Identified Global Education and Children in Conflict with Laws and Searched out Guaranteed Child Rights Uncompromising Constitutional Rights of our Children The book One Unarmed Soldier All in One Part II also speaks about duty for duty s sake of both Nodal Agencies and Nodal Ministries The book One Unarmed Soldier All in One Part II also speaks about Fundamental Duties Moral Responsibilities of both Teachers and Parents **Creation in Pairs** Jamir Ahmed Choudhury,2025-11-05 Truth is not a possession it is the shared heritage of humanity The right to education implies the right to communicate truth based learning aligning with Article 29 of the UN CRC and Section 29 of India s RTE Act 2009 NCERT affirms that science is neutral and universally accepted by the global scientific community Yet this book argues that today s global education system shaped by UN led governance is flawed and self contradictory NASA driven global systems and UNESCO led curricula fail to deliver a truly neutral science as they contain logical inconsistencies and ethical fallacies Freedom of religion internationally recognized is inseparable from the right to communicate education grounded in natural truths such as the principle of creation in pairs Drawing upon both the Quran Kitaaba bil Haq and empirical evidence the book urges policymakers and educators to adopt frameworks that reflect nature s equal and opposite a priori principles an obligation reinforced by the UDHR and other human rights instruments At its core the book asserts that nature s equal and opposite a priori principle evident in creation in pairs and further exemplified by Newton s Third Law is fundamental to the universe Reality is governed by balanced and reciprocal relationships male and female day and night birth and death action

and reaction that exist independently of human constructs Recognizing and restoring this natural equilibrium is essential for humanity to reclaim its inherent rights and free itself from misleading global narratives The denial of creation in pairs is therefore a denial of nature s universal and self evident law of balance The Religions of Ancient Egypt and Babylonia
