STRATEGIC MANAGEMENT : CONCEPTS AND CASES MILIND T. PHADTARE,2010-10-04 Primarily intended for the postgraduate students of commerce and management this compact text covers all the topics prescribed in almost all universities and autonomous institutes in India Each concept is explained with the help of many real life examples from the Indian context Considering the fact that the understanding of the concept of strategic intent is prerequisite to the understanding of strategic management the chapter on strategic intent is included which brings out the differences between various elements of strategic intent It also covers the current happenings in the

businesses from the Indian context Similarly a topic on strategic choice has been discussed at length because of the fact that BCG growth share matrix and GE nine cell matrix are extremely useful in making a strategic decision in real life Besides the book contains ten case studies on various topics of strategic management such as environmental appraisal critical success factors SWOT analysis strategic intent strategic choice business level strategy formulation and choice of growth strategy All these cases are provided with authentic industry specific data Firms are chosen from different businesses thereby giving business specific flavour and a broad understanding of various business domains

Strategic Management Concepts, Skills And Practices Dr. Bharat Singh Rawat , Ms. Shweta Singh, Ms. Manuha Nagpal, Dr. Sanghmitra Sharma, A company cannot function or expand without access to sufficient financial resources Without money running a company is very difficult As a result it is not optional to have a firm grasp of how corporate finances function The stability of an enterprise rests on its financial foundation Capital is the sum of money and credit available to a company The acquisition of properties products and raw materials as well as the carrying out of all the other economic operations necessitates the use of financial resources Indeed it is essential for carrying out all economic activities Business finance refers to the practice of raising and preserving money to satisfy an enterprise's immediate and long term financial requirements and goals The fact that it takes business financing to carry out any commercial function at all demonstrates the centrality of business financing The money an entrepreneur invests in his or her firm is usually insufficient to cover all of the company's bills In this context the administration of a company's finances takes on even more significance As a result company owners and their staff constantly hunt for new revenue streams to exploit The goal of a company's financial planning should be to maximize shareholder value Realize that maximizing wealth is not the same as maximizing profits The maximization of wealth is an all encompassing goal that guarantees a company's success
