**Catholic Educational Review** Edward Aloysius Pace, Thomas Edward Shields, 1916      **A Contemporary Archaeology of London's Mega Events** Jonathan Gardner, 2022-05-16 A Contemporary Archaeology of London's Mega Events explores the traces of London's most significant modern mega events. Though only open for a few weeks or months, mega events permanently and disruptively reshape their host cities and societies: they demolish and rebuild whole districts, they draw in materials and participants from around the globe, and their organisers self-consciously seek to leave a legacy that will endure for decades or more. With London as his case study, Jonathan Gardner argues that these spectacles must be seen as long-lived and persistent rather than simply a transient or short-term phenomena. Using a novel methodology drawn from the subfield of contemporary archaeology—the archaeology of the recent past and present day—a broad range of comparative studies are used to explore the long-term history of each event. These include the contents and building materials of the Great Exhibition's Crystal Palace and their extraordinary afterlife at Sydenham South London; how the Festival of Britain's South Bank Exhibition employed displays of ancient history to construct a new post-war British identity; and how London 2012, as the latest of London's mega events, dealt with competing visions of the past as archaeology, waste, and heritage in creating a vision of the future.

With a unique focus on Spanish as an international language, each chapter questions the traditional and modern notions of language, place, and identity in the urban context of globalization. This collection of new perspectives on the sociology of Spanish provides an insightful and invaluable resource for students and researchers seeking to explore lesser-known areas of sociolinguistic research.

**The Reception of Northrop Frye**, 2021-08-31 The widespread opinion is that Northrop Frye's influence reached its zenith in the 1960s and 1970s, after which point he became obsolete, his work buried in obscurity. This almost universal opinion is summed up in Terry Eagleton's 1983 rhetorical question: "Who now reads Frye?" In *The Reception of Northrop Frye*, Robert D. Denham catalogues what has been written about Frye: books, articles, translations, dissertations, and theses, and reviews, in order to demonstrate that the attention Frye's work has received from the beginning has progressed at a geomantic rate. Denham also explores what we can discover once we have a fairly complete record of Frye's reception in front of us, such as Hayden White's theory of emplotments applied to historical writing.

and Byron Alms theory of musical narrative The sheer quantity of what has been written about Frye reveals that the only valid response to Eagletons rhetorical question is a very large and growing number the growth being not incremental but exponential
