The Lost Outpost Joshua Quentin Hawk, 2019-02-08 In the Earth year 2260 Commander Daniel Bowers a renowned environmental planetary scientist and archeologist leads a team of explorers to a newly discovered planet for possible colonization and habitation due to overpopulation and environmental degradation of both Earth and Mars but now he has awakened an ancient force and shot forward in time Now in the year 2273 Bowers has landed right in the middle of a coup and conspiracy by the Earth president and his ex admiral his former commander Both do not care whom they hurt and wish to use the newly acquired alien technology which they found in the Andromeda Galaxy for their own profit and power This brings Bowers right back into the middle of his ex admiral s newest agenda To complete his original mission to save Earth and Mars Bowers will need to stop his ex admiral the coup and the ancient force he has awoken First he must remember who he is from his memory loss because of the lost time due to losing the ten years Bowers and his new team one at first that does not accept him for who is and believes he is causing the calamities and not the ancient force or his ex admiral must now work together As the conspiracy unfolds will a current admiral and old family friends learn in time what is going on and help him stop the ancient force and the coup and to complete his original mission to help Earth and Mars

The Lost Sentinel Emma L. Adams, They say the country of Zeuten no longer has any need for heroes Quests have been completed

the great Powers have withdrawn from the world and the Sentinels who guard the last Relics are largely forgotten Unlike their neighbours in the country of Aestin whose Invokers wield the magic of the deities in exchange for glory and prestige they leave the gods alone and the gods extend the same courtesy to them When Zeuten s last Sentinel disappears Zelle her granddaughter intends to track her down Instead she runs into an Aestinian stranger with no memories of his past who claims to be looking for a long lost Relic hidden in the mountains by the first Sentinels To Zelle the rumours of lost Relics are just stories told to trick gullible travellers but the hordes of enemies on the stranger s tail suggest otherwise Armed with nothing but her grandmother s sentient and temperamental magical staff Zelle finds herself tasked with keeping them both alive Between monstrous beasts magical storms and an enthusiastic but inept aspiring assassin and her dragon sidekick Zelle has her work cut out if she wants to survive long enough to save her grandmother and prevent the destruction of a nation Maybe Zeuten is in need of a few heroes after all An epic fantasy trilogy featuring a bookworm heroine with a sarcastic talking staff a warrior with no memory of his past and an inept aspiring assassin with a baby dragon sidekick For fans of fast paced adventures cool settings and action packed plots [The Lost Colony of Roanoke](#) Brandon Fullam,2017-04-11 When Governor John White sailed for England from Roanoke Island in August 1587 he left behind more than 100 men women and children They were never seen again by Europeans For more than four centuries the fate of the Roanoke colony has remained a mystery despite the many attempts to construct a satisfactory convincing explanation New research suggests that all past and present theories are based upon a series of erroneous assumptions that have persisted for centuries Through a close examination of the early accounts previously unknown or unexamined documents and native Algonquian oral tradition this book deconstructs the traditional theories What emerges is a fresh narrative of the ultimate fate of the Lost Colony
