Bryer,1989 Praise for the earlier edition Students of modern American literature have for some years turned to Fifteen Modern American Authors 1969 as an indispensable guide to significant scholarship and criticism about twentieth century American writers In its new form Sixteenth Modern American Authors it will continue to be indispensable If it is not a desk book for all Americanists it is a book to be kept in the forefront of the bibliographical compartment of their brains American Studies **Risk and Adaptation in a Cancer Cluster Town** Laura Hart,2023-06-16 In disease cluster communities across the country environmental contamination from local industries is often suspected as a source of disease But civic action is notoriously hampered by the slow response from government agencies to investigate the cause of disease and the complexities of risk assessment In Risk and Adaptation in a Cancer Cluster Town Laura Hart examines another understudied dimension of community inaction the role of emotion and its relationship to community experiences of social belonging and inequality Using a cancer cluster community in Northwest Ohio as a case study Hart advances an approach to

risk that grapples with the complexities of community belonging disconnect and disruption in the wake of suspected industrial pollution Her research points to a fear driven not only by economic anxiety but also by a fear of losing security within the community a sort of pride that is not only about status but connectedness Hart reveals the importance of this social form of risk the desire for belonging and the risk of not belonging ultimately arguing that this is consequential to how people make judgements and respond to issues Within this context where the imperative for self protection is elusive affected families experience psychosocial and practical conflicts as they adapt to cancer as a way of life Considering a future where debates about risk and science will inevitably increase Hart considers possibilities for the democratization of risk management and the need for transformative approaches to environmental justice
