## **Winning Research Funding:**

*Winning Research Funding* Dr Abby Day, 2012-10-01 The ability to produce valid research has never been more crucial to the academic community than it is today but how do you go about getting the funding for such projects How do you identify which funding organisations are likely to be sympathetic to your needs and convince them that they will benefit from funding you Abby Day Peters guides you step by step through the process of focusing your research and identifying your funding partner to provide the very best chance of success But perhaps more importantly she also goes on to explain how to build and maintain a relationship with the partner thereby assisting future research In addition the book gives advice on writing and successful publication following completion of the research project The text is extremely lively and enjoyable to read with many valuable insights from both sides of the funding process and features real life case studies and interviews throughout

*How to Get Published and Win Research Funding* Abby Day, 2023-06-19 Most journal articles and research proposals are rejected That represents a waste of everyone's time energy and spirit especially now when more than ever academic careers are precarious In this practical book Professor Abby Day addresses these two inter related and most challenging areas for academics and researchers in their professional careers how to secure research funding and how to get research published Reviewers unpaid and often unappreciated are over stretched with their regular academic jobs and increasingly reluctant to spend time reading poorly constructed papers or proposals As fewer reviewers are available the waiting time for a decision increases Everyone loses It doesn't have to be like that Professor Day's ground breaking strategy covers both publishing and funding challenges in similar yet distinct ways Lack of time Conflicting priorities No idea where to start or what matters most This book explains how to overcome these and other common obstacles to successful publication and funding For the first time one book covers both activities with practical guidance for setting your strategy and purpose identifying the right publisher or funder and understanding your audience and the key criteria for success as well as helpful advice for writing and managing the challenges of an academic career This book draws on the first and second editions of two international bestsellers *How to Get Research Published in Journals* and *Winning Research Funding* Based on original research with editors funders and successful academics plus two decades of running international workshops on publishing and funding Professor Day has now updated and merged these two critically acclaimed texts This book is essential reading for graduate students and early career faculty members who will gain new and effective insights and strategies to secure funding and publication opportunities to help develop their academic careers
