Comprehensive analysis of the disaster risk reduction system for the agricultural sector in Kazakhstan Food and Agriculture Organization of the United Nations, 2022-04-08 This report aims to highlight the current strengths of the institutional DRR system for agriculture in Kazakhstan as well as indicate existing gaps and capacity needs to further enhance it. A comprehensive assessment is conducted which includes a general overview of the country's agricultural sector and outlines the most frequent natural hazards that are impacting the sector. It is followed by an analysis of the existing legal policy and institutional structure and discusses various components of the system including e.g. the functioning of early warning systems, assessments of disaster risks, post-disaster needs assessments including damages and losses assessments and the availability of agricultural insurance for farmers.
