Willmoore Kendall John A. Murley, John E. Alvis, 2002-01-01 Willmoore Kendall Maverick of American Conservatives provides the first book length study of a man long regarded as a founding father of American intellectual conservatism This edited collection brings together a diverse range of perspectives on Kendall s life and work and places the post World War II political theorist in the context of modern American conservatism Far from providing a monolithic view of Kendall s thought the contributions illuminate an unconventional often contradictory thinker The book traces the development of Kendall s body of political thought from his early years in Oxford through his work on John Locke to the later speculation that produced *The Basic Symbols of the American Political Tradition* and analyzes the influence of Leo Strauss on his later work Including for the first time in print the complete correspondence between Kendall and Strauss that significantly shaped Kendall s later work Willmoore Kendall is a vital contribution to American intellectual history

Cinema of Sincerity Viktoria Paranyuk, 2025-12-16 Following Stalin s death in 1953 and Khrushchev s acknowledgment of Stalin s crimes in 1956 sincerity emerged as a cultural imperative in the Soviet Union The cinema of this period turned inward insisting on ordinary characters and creating a sense of spontaneity through particular staging methods and cinematic techniques such as interior monologue and the close up These changes shifted the understanding of what realism meant and allowed Soviet cinema to reestablish with its audiences the trust that had been corrupted by serving Stalin s cult of personality Using both theory and close readings of specific films produced in the Soviet Union during the Thaw a period known for its relative political and cultural liberalization *Cinema of Sincerity* treats sincerity as both a concept and an aesthetic strategy Viktoria Paranyuk argues that Soviet cinema s use of sincerity was a reworking of a trend in global cinema that sought to bridge the gap between reality and the filmed image This period saw increased accessibility to world cinematic traditions new voices in criticism and above all the multigenerational effort in filmmaking that developed and thrived in centers outside Moscow Paranyuk demonstrates how these changes allowed Soviet cinema to renew its visual language and use film as a space for collective self examination
