The Lost Pharaohs ... Cadet Edition. [With Plates.]. Leonard Cottrell, 1960 The Lost pharaohs Leonard Cottrel, 1955 **The Secret of the Lost Pharaoh** CAROLYN. ARNOLD, 2018-04-17 Archaeologist Matthew Connor and his friends set off for Egypt in search of the legendary Emerald Tablets when a colleague finds clues to their whereabouts Given the powers the Tablets are said to possess the fate of the world hangs in the balance and there is no time to waste **The Lost Pharaoh Puzzle** AQEEL AHMED, 2024-02-29 In modern day Egypt a young scholar finds a clue that leads to a pharaoh s tomb The tomb is guarded by puzzles that look like the Sphinx and could change the course of history To sum up A young historian named Sami lived in an exciting colorful part of Egypt that was full of both current sounds and the sounds of long gone times Sami was different from everyone else because he was crazy about historical secrets and couldn t get enough information Sami found an interesting map hidden in a forgotten corner of an old dirty library while he was walking around it But this wasn t any old map It held the answer to a long lost puzzle that would lead to the tomb of a king whose name was only remembered in stories and myths from long ago Sami set out on an adventure that was beyond his wildest dreams because he was excited and wanted to find new things The path wouldn t be easy mysterious riddles like the Sphinx would stand in the way and each one would be a gatekeeper to the next part of his goal The ancients made these puzzle like questions to keep the pharaoh s tomb and its secrets safe secrets that can change how we think about the past bring back stories we ve lost and let out secrets we ve kept for a long time But Sami wasn t the only one looking for something He met new people along the way who were just as interested in investigating the secrets that lay ahead as he was They worked together to solve every problem showing that they were brave and clever They used clues to find their way found hidden passages and opened doors that had been locked in years They were getting closer to finding the secrets buried with the king with each step they took to solve his puzzles It wasn t just a quest to find a hidden tomb it was a trip of bravery friendship and unquenchable interest Sami and his friends were able to get through even the hardest problems by working hard and not

giving up When they stood in front of the tomb and revealed the truths that were inside they understood that they had not only found the final resting place of a lost pharaoh but also a piece of history that had been waiting to be told They brought stories that had been lost for hundreds of years to life and made them ready to be told to the world This would be a lasting way for future generations to remember the forgotten pharaoh

Chapter 1 What They Found

A young scholar named Sami used to live in the middle of Cairo a city full of life and artifacts from other times Sami wasn't like other teens his age he was always looking for es and was very interested in the past He dreamed of finding secrets buried in the sands of time and he loved nothing more than getting lost in historical stories Sami found something wonderful while looking through the maze of racks in an old dimly lit library on a beautiful afternoon He found an old dusty map in a forgotten part of the library that seemed to hold secrets from a different time This map wasn't like most It had carefully drawn lines torn edges and the promise of an adventure Sami could never have dreamed of The map was like a puzzle that had to be solved to find the location of the tomb of a king whose name had been lost to history People said that this pharaoh's final resting place was hidden and protected by sneaky traps and clever puzzles to keep people who weren't supposed to be there from getting there Sami's heart raced at the thought of finding a place that no one had been to before He knew that digging this tomb could bring up long buried secrets about the ancient world such as details about the lives of historical figures Sami was eager to find the lost tomb because he was interested and wanted to feel the thrill of finding something new He carefully looked at the map following its lines and markings to try to figure out the clues that were hidden inside its folds The map itself was a gem a key to the past that let you see the amazing things that people did in the past Sami knew that this trip would be the hardest thing he had ever done The ancients used traps and puzzles to keep their most important secrets safe But they were more than just problems they were tests of how smart and brave you were Sami found the old map in a library nook that wasn't being used which started an amazing trip He would have to use all of his guts and smarts to get through the complicated old Egypt Sami knew that his adventure would be more than just finding a secret tomb as he got ready to start His search for a lost piece of history would test his willpower and show him how important it is to learn and go on adventures He was ready to go into the unknown with the map to help him He was eager to figure out the puzzles and get past the obstacles that were stopping him from learning the pharaoh's secrets

Chapter 2 The First Hint

As Sami unfolded the old map and looked at it in the dim light of his desk lamp something amazing happened With all of its complicated lines and marks the map seemed to come to life and tell stories from the past As Sami's eyes moved across the paper he saw a phrase that would help him plan his journey At the Sphinx's gaze where the sun meets the earth the journey begins At first this mysterious message confused Sami but it eventually made sense to him The first piece of proof was found in the Great Sphinx of Giza a huge statue with the head of a person and the body of a lion staring forever at the point where the sky meets the ground at sunrise and sunset Sami knew that his hunt would begin with this strange and quiet old Egyptian guardian The Sphinx a magnificent work of

ancient art and design has stood guard over the Giza plateau for thousands of years its eyes set on the eastern sky waiting for the sun to rise every day Sami knew that he would start his quest to find out about the long forgotten king at the feet of this huge defender The hint suggested that the start of the journey would happen when the country was lit up by the sun's first or last rays making long shadows that revealed secrets that were hidden from plain sight Light and shadow danced across the old stones making the Sphinx look like it was coming to life right now It told anyone who would listen about the secrets of the past Sami knew that he had to stand in front of the Sphinx at this lucky time in order to continue his quest He had to be ready to watch understand and act on the clues that came from nature and common sense After learning this Sami got ready for his trip to see the Great Sphinx of Giza He was very excited and his mind was full of questions What did the Sphinx keep hidden What secrets were there for people who were brave enough to look for them Sami knew that this was a chance to go deep into old Egypt and connect with the past in ways that not many people have ever been able to do more than just looking for a tomb
