

Why Evergreen Trees Keep Their Leaves in Winter

A long time ago when winter was coming, all the birds flew to the warm south. One little bird had a broken wing. She could not fly south.

The little bird asked a birch tree if she could live in his branches until spring. The birch tree would not let her. She asked an oak tree and a willow, but they too would not help the little bird.

The little bird was about to give up when a spruce tree saw her sadness. He told her she could nest in his branches all winter long. A nearby pine tree told her that he would use his strong branches to protect her from the wind. A juniper tree also helped by letting her eat his berries.

That night, the North Wind came to the woods. He wanted to blow the leaves off of all the trees. His father, the Frost King said that he could not blow the leaves off the trees that had helped the little bird.

So it was that the spruce, the pine, and the juniper trees got to keep their leaves, while the birch, oak, and willow lost theirs to the North Wind.
