Xingu Chronicles:

Xingu Chronicles Per Fronth, Donald Burton Kuspit, 1998-01-01 [Indigeneity in Latin American Cinema](#) Milton Fernando Gonzalez Rodriguez, 2022-07-28 *Indigeneity in Latin American Cinema* explores how contemporary films 2000 2020 participate in the evolution and circulation of images and sounds that in many ways define how indigenous communities are imagined at a local regional and global scale The volume reviews the diversity of portrayals from a chronological geopolitical linguistic epistemic ontological transnational and intersectional paradigm changing and self representational perspective allocating one chapter to each theme The corpus of this study consists of 68 fictional features directed by non indigenous filmmakers 31 cinematic works produced by indigenous directors communities and 22 Cine Regional Regional Cinema films The book also draws upon a significant number of engravings drawings paintings photographs and films produced between 1493 and 2000 as primary sources for the historical review of the visual representations of indigeneity Through content and close textual analysis interviews with audiences surveys and social media posts analysis the author looks at the contexts in which Latin American films circulate in international festivals and the paradigm shifts introduced by self representational cinema and Roma Mexico 2018 Conclusively the author provides the foundations of histrionic indigeneity a theory that explains how overtly histrionic proclivities play a significant role in depictions of an imagined indigenous Other in recent films [From the Enemy's Point of View](#) Eduardo Viveiros de Castro, 2020-05-02 The Arawet are one of the few Amazonian peoples who have maintained their cultural integrity in the face of the destructive forces of European imperialism In this landmark study anthropologist Eduardo Viveiros de Castro explains this phenomenon in terms of Arawet social cosmology and ritual order His analysis of the social and religious life of the Arawet a Tupi Guarani people of Eastern Amazonia focuses on their concepts of personhood death and divinity Building upon ethnographic description and interpretation Viveiros de Castro addresses the central aspect of the Arawete s concept of divinity consumption showing how its cannibalistic expression differs radically from traditional representations of other Amazonian societies He situates the Arawet in contemporary anthropology as a people whose vision of the world is complex tragic and dynamic and whose society commands our attention for its extraordinary openness to exteriority and transformation For the Arawet the person is always in transition an outlook expressed in the mythology of their gods whose cannibalistic ways they imitate From the Enemy s Point of View argues that current concepts of society as a discrete bounded entity which maintains a difference between interior and exterior are wholly inappropriate in this and in many other Amazonian societies **Athenaeum and Literary Chronicle** James Silk Buckingham, John Sterling, Frederick Denison Maurice, Henry Stebbing, Charles Wentworth Dilke, Thomas Kibble Hervey, William Hepworth Dixon, Norman Maccoll, Vernon Horace Rendall, John Middleton Murry, 1832 **Art Now Gallery Guide** , 1998-03 **Jewish Literatures in Spanish and Portuguese** Ruth Fine, Susanne Zepp, 2022-10-24 This volume offers a thorough introduction to Jewish world literatures in Spanish and Portuguese which not

only addresses the coexistence of cultures but also the functions of a literary and linguistic space of negotiation in this context From the Middle Ages to present day the compendium explores the main Jewish chapters within Spanish and Portuguese language world literature whether from Europe Latin America or other parts of the world No comprehensive survey of this area has been undertaken so far Yet only a broad focus of this kind can show how diasporic Jewish literatures have been and are while closely tied to their own traditions deeply intertwined with local and global literary developments and how the aesthetic praxis they introduced played a decisive formative role in the history of literature With this epistemic claim the volume aims at steering clear of isolationist approaches to Jewish literatures **The Argonaut**, 1916 **Reading for Reform** Laura R. Fisher, 2019-03-05 An unprecedented examination of class bridging reform and U S literary history at the turn of the twentieth century Reading for Reform rewrites the literary history of late nineteenth and early twentieth century America by putting social reform institutions at the center of literary and cultural analysis Examining the vibrant often fractious literary cultures that developed as part of the Progressive mandate to uplift the socially disadvantaged it shows that in these years reformers saw literature as a way to combat the myriad social problems that plagued modern U S society As they developed distinctly literary methods for Americanizing immigrants uplifting and refining wage earning women and educating black students their institutions gave rise to a new social purpose for literature Class bridging reform institutions the urban settlement house working girls club and African American college are rarely addressed in literary history Yet Laura R Fisher argues they engendered important experiments in the form and social utility of American literature from minor texts of Yiddish drama and little known periodical and reform writers to the fiction of Edith Wharton and Nella Larsen Fisher delves into reform s vast and largely unexplored institutional archives to show how dynamic sites of modern literary culture developed at the margins of social power Fisher reveals how reformist approaches to race class religion and gender formation shaped American literature between the 1880s and the 1920s In doing so she tells a new story about the fate of literary practice and the idea of literature s practical value during the very years that modernist authors were proclaiming art s autonomy from concepts of social utility *The Publishers Weekly*, 1922 *ARTnews*, 1998 The New International Year Book, 1917 Language, Image and Power in Luso-Hispanic Cultural Studies Susan Larson, 2021-09-30 This volume explores the history evolution and future of Luso Hispanic Cultural Studies as a discipline a pedagogical tool and a set of working practices by bringing together a diverse group of renowned specialists to examine how the field has grown out of and radically reconsidered some of the basic premises of British Cultural Studies since the 1950s to address the many cultures of the Spanish and Portuguese speaking world The chapters in this volume address How Cultural Studies is being practiced in the increasingly virtual mediascapes of the twenty first century What happens to basic critical assumptions about culture and power after they have passed through the filter of Post Colonial and Decolonial Studies of the Luso Hispanic world How we understand the role of culture in light of recent experiences with radical

demographic shifts populism and civil unrest within Latin America Iberian and the Latino U S How new ways of practising Luso Hispanic Cultural Studies have worked their way into our pedagogy and the structure of the curriculum in the age of the increasingly privatized neoliberal university Providing keen insight and reflection on these questions this volume is an essential read for scholars and students of Visual and Film Studies Latin American and Iberian Studies Luso Brazilian Studies Language and Culture Pedagogy Global Studies and for anyone interested in Cultural Studies across the Luso Hispanic world
